## ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu. Mr. .D .B. ChandShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

## ABOUT THE CSE DEPARTMENT

The department of Computer Science and Engineering was established in the year 2004 and offers undergraduate programs to students from urban and rural areas of India. The department has well equipped computing laboratories and a rich repository of Software & Hardware covering a wide spectrum of applications. The department strongly emphasizes on learning fundamentals and analyzing latest technology to develop student's creativity by encouraging them to take up projects with varying levels of complexity. DRK values the importance of this stream, and honors it by providing the course.

## ABOUT THE CERTIFICATE PROGRAM

**Python** is a widely used general-purpose, high level programming language. It was created by Guido van Rossum in 1991 and further developed by the Python Software Foundation. It was designed with an emphasis on code readability, and its syntax allows programmers to express their concepts in fewer lines of code. Python is a programming language that lets you work quickly and integrate systems more efficiently. There are two major Python versions: **Python 2 and Python 3**. Both are quite different.

## TOPICS COVERED

- Introduction to python programming
- File handling
- GUI programming
- Networking
- Strings

## ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B.ChandraSekhar Rao. He founded the institute in honor of his late father, Sri Dasari RamaKotaiah Garu. Mr.D.B.ChandraShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

## ABOUT THE ECE DEPARTMENT

The Department of Electronics and Communication Engineering was established in 2006. It offers Under Graduating Programme with intake of 60 students. The students are offered with innovative workshops, guest lectures informative industrial visits etc. on a regular basis, to keep them updated with the latest trends in electronics and communication engineering. Well- equipped labs and sound academic record faculty are provided to make the students feel the greatness of Electronics and communication Engineering. DRK values the importance of this stream, and honors it by providing the course.

## ABOUT THE CERTIFICATE PROGRAM

Disaster management is how we deal with the human, material, economic or environmental impacts of said disaster, it is the process of how we "prepare for, respond to and learn from the effects of major failures". Though often caused by nature, disasters can have human origins.

## TOPICS COVERED

- Introductionto DisasterManagement
- Industrial Disaster
- Preventionof Biological Hazards
- Postdisaster EpidemicsPrevention
- Legal Frame For Biological Disaster

## REPORT

## FACULTY DEVELOPMENT PROGRAMME ON DISASTER MANAGEMENT

Summary of the program

The speakers discussed the National Disaster Management Authority (NDMA) in India, highlighting:

1. NDMA's role: Apex body for Disaster Management in India, headed by the Prime Minister.

2. Mandate: Laying down policies, plans, and guidelines for Disaster Management.

3. Enabling environment: Creation of institutional mechanisms at State and District levels, as mandated by the Disaster Management Act, 2005.

4. Vision: Development of an ethos of - Preventio - Mitigation - Preparednes - Response

5. Objective: To ensure a proactive and coordinated approach to Disaster Management, minimizing the impact of disasters on human life and the economy.The speakers emphasized NDMA's crucial role in shaping India's Disaster Management framework, ensuring a comprehensive and integrated approach to disaster risk reduction and management.

**Department of EEE**

**REPORT**

**FACULTY DEVELOPMENT PROGRAMME ON ARTIFICIAL INTELLIGENCE**

Summary of the programme

Speaker discussed aboutArtificial intelligence (AI) refers to the simulation of human intelligence in machines, enabling them to perceive, learn, and take actions to achieve specific goals. The field of AI research focuses on developing methods and software to create intelligent machines that can:

1. Perceive their environment
2. Use learning and intelligence to take actions
3. Maximize their chances of achieving defined goals

The increasing use of AI in the 21st century is driving a societal and economic shift towards:

1. Automation
2. Data-driven decision-making
3. Integration of AI systems into various sectors and areas of life

This raises important questions and concerns about:

1. Long-term effects
2. Ethical implications
3. Risks of AI
4. Regulatory policies to ensure safety and benefits

AI's impact is being felt in various areas, including:

1. Job markets
2. Healthcare
3. Government
4. Industry
5. Education
6. Propaganda and disinformation

As AI continues to evolve and shape our world, it's crucial to address these concerns and develop responsible AI practices that prioritize human well-being and safety.

## *ABOUT THE DRKIST*

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu.Mr.D.B.ChandraShekarRao,a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

## ABOUT THE EEE DEPARTMENT

The department of Electrical and Electronics Engineering was established in the year 2004. It offers UG with intake of 30 students. The students are offered with innovative workshops, guest lectures informative industrial visits etc. on a regular basis, to keep them updated with the latest trends in electrical and electronics engineering. Well- equipped labs and sound academic record faculty are provided to make the students feel the greatness of Electrical Engineering. DRK values the importance of this stream, and honors it by providing the course.

## About the Certificate Program

Artificial intelligence (AI) is a set of technologies that enable computers to perform a variety of advanced functions, including the ability to see, understand and translate spoken and written language, analyze data, make recommendations, and more.

## *TOPICS COVERED*

- Introduction To Engineering Trends In Artificial Intelligence
- Developing AI algorithms for early detection of chronic diseases using patient data.
- The use of deep learning in enhancing the accuracy of weather prediction models.

- Application Of Artificial Intelligence
- Advanced Artificial Intelligence

## Department of Mechanical Engineering

# REPORT ON FACULTY DEVELOPMENT PROGRAMME ON 3D PRINTING TECHNOLOGIES

The speakers highlighted the rapid growth of 3D printing in the 21st century and its transformative impact on traditional manufacturing methods. Key points discussed include:

1. Explosive growth: 3D printing has experienced tremendous growth since the turn of the century.

2. Increased accessibility: Xometry now has thousands of 3D printing customers and offers instant quotes for 9 different 3D printing processes.

3. Innovative capabilities: 3D printers can build complex, intricate parts layer-by-layer, limited only by the designer's imagination and material capabilities.

4. Simplified manufacturing: 3D printing often requires less skill, expertise, and upfront preparation compared to traditional methods like CNC machining or injection molding.

5. Democratization of manufacturing: 3D printing makes it possible for a wider range of people to design and manufacture products, regardless of their background or experience.

The speakers, including Dr. B. Sridhar Babu, Prof. CMRIT, Hyd, Mohan, Assoc. Prof, GNCET, and Dr. Raman Goud, Prof. GRIET, Hyd, emphasized the potential of 3D printing to revolutionize the manufacturing industry and make it more accessible to a

PRINCIPAL

Bowrampet, Qutbullapur,
Hyderabad - 500 043.

H.O.D

broader range of people.

Dr. S. Suryprakash Rao and Dr. S. Shyam Sunder Rao discussed the vast applications of 3D printing, including:

1. Advanced aerospace components

2. Medical implants (e.g., tooth implants, heart valves, knee replacements, maxillofacial implants)

3. Customized products with complex geometries

4. Tools and equipment

5. Home decor

PRINCIPAL
DRK Institute of Science & Technology
Bowrampet, Quthbullapur,
Hyderabad - 500 043.

They highlighted the benefits of 3D printing in medical implants, such as:

1. Personalized products for patients

2. Improved patient outcomes

3. Rapid fabrication of complex geometries

4. Potential for 3D printing entire organs, revolutionizing transplant procedures

Additionally, they touched on the nearly endless applications of 3D printing, including:

1. Automotive parts

2. Consumer products

3. Artistic creations

4. Prosthetics

5. Dental implants

The speakers emphasized the innovative potential of 3D printing to transform various industries and improve lives.

iology's journey of success began in 2004 the visionary leadership of Mr. D.B. Ira Sekhar Rao. He founded the institute in of his late father, Sri Dasari Rama Kotaiah Mr.D.B.ChandraShekarRao,a distinguished successful entrepreneur, established the ite with an unwavering commitment to ling high-quality education. His vision was eate a leading institution that would bute to the nation's economic and industrial h. DRK Institute of Science and iology is part of the DRK Educational y, which has made significant investments rastructure, academic resources, and career opment opportunities for its students. The ite dedicates itself to cultivating a dynamic ng environment that enhances its students' ptual and technical skills, equipping them e challenges of the modern world.

## UT THE H&S DEPARTMENT

tment of Science and Humanities was shed in the year 2006. Students of I Year is to this Department. It inculcates basic edge in Mathematics, Physics, Chemistry English which is the foundation of ering education. In our Department the of science and technology prevails, as it is ed that Engineering and Science are, by ery nature, humanistic and socially derived rises. English language is pervasive and throughout the world. It is the language walks of life. Mathematics, the queen of es is the basis for all branches of Science, ering and Technology. The study of Physics ers the mysteries of nature through the edge of properties of matter Equally ant is the study of Environmental stry and Engineering, to save the globe ollutions.

High emotional intelligence can help you navigate the social complexities of the work place , lead and motivate others and excel in your career. In fact, when it comes to gauging important job candidates now rate emotional intelligence as important as technical ability and employ EQ testing before hiring.

## Department of Master of Business Administration

## REPORT

## FACULTY DEVELOPMENT PROGRAMME ON RECENT TRENDS AND PRACTICES E-COMMERCE

**Summary of the program**

Businesses are selling products directly on social media platforms like Instagram and Facebook, where they can create shippable feeds for their followers.

Augmented and virtual reality AR and VR technologies are becoming more popular, allowing customers to visualize products in a more immersive way.

Personalization Customers are enjoying the ability to customize their website appearances and navigation systems, and to choose their own content. AI-powered e-commerce can also provide personalized shopping experiences.

Omni channelBusinesses are selling on multiple platforms to reach more consumers and benefit their fulfillment operations.

Voice commerceThe rise of voice assistants like Alexa and Google Home, and the popularity of smart speakers, is making it easier for customers to shop using voice commands.

Flexible payment optionsBuy-now-pay-later is a popular payment method that many e-commerce businesses have adopted.

Headless commerce This architecture decouples the front-end from the back-end, removing the main database from the presentation layer.

Other trends include:

Big data for personalization Subscription models for customer retention

Interactive catboats for customer support Shippable video content Authenticity and sustainability Mobile shopping Customer privacy

# REPORT ON FACULTY DEVELOPMENT PROGRAMME ON EMOTIONAL INTELLIGENCE

Summary of the programme

Speakers discussed on Emotional intelligence (EI) refers to the ability to:

1. Perceive emotions
2. Use emotional information to guide thinking and behavior
3. Understand and manage emotions
4. Handle emotions to adapt to environments

Key points:

1. Daniel Goleman's 1995 book popularized the concept of EI
2. EI can be defined as a set of skills and characteristics that drive leadership performance
3. Debate exists on whether EI is learned or inborn
4. Various models measure EI, including:
   - Trait model (self-reporting of behavioral dispositions and perceived abilities)
   - Ability model (processing emotional information to navigate social environments)
   - Mixed model (combines ability and trait EI)
5. Recent research focuses on:
   - Emotion recognition (attributing emotional states based on nonverbal cues)
   - Neural mechanisms of EI
6. Correlation exists between high EI and positive workplace performance
7. EI is associated with empathy, connecting personal experiences with others'
8. Developing EI is sought after for effective leadership

Overall, emotional intelligence is a complex and multifaceted concept that continues to be researched and developed.
