## ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu. Mr. D.B. ChandShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

## ABOUT THE MBA DEPARTMENT

MBA at DRK is not just about receiving a degree. It is about the students to stand as an Innovator and leader to lead their business organizations in future and the management skills obtained from this course aids the business to new heights. Structure of the course is designed in such a way that it improves student's theoretical and practical knowledge of how business can operate and run in a successful path. It sharpens the students overall communication skills, strategic thinking, leadership abilities, and decision-making skills.

## ABOUT THE CERTIFICATE PROGRAM

Advancements in sustainable entrepreneurship is essential for fostering environmental stewardship, driving economic growth, ensuring social responsibility, and preparing for a resilient and competitive future in business.

## TOPICS COVERED

- Circular Economy
- Circular Design
- Reverse Logistics
- Product Life Extension
- Clean Energy Technologies
- Renewable Energy
- Energy Storage
- Smart grids

### PROGRAMME REPORT

<b>Programme name</b>	One-day Seminar on Advancements in Sustainable Entrepreneurship
<b>Resource person</b>	Kamal , invectus CEO in the alumni of VNR VJIET
<b>Date of activity</b>	13/08/2019
<b>Organized by</b>	DRK Institutes of Science & Technology
<b>Venue</b>	Seminar Hall
<b>Number of Students attended</b>	35

#### Objective of the Programme

The one-day seminar aims to give participants on Advancements in sustainable entrepreneurship are crucial for addressing global challenges such as climate change, resource depletion, and social inequality. Here are some key advancements and trends in sustainable entrepreneurship:

- 1. Circular Economy Initiatives:** Sustainable entrepreneurs are embracing the principles of the circular economy, which aims to minimize waste and maximize resource efficiency. This includes designing products for durability, reuse, remanufacturing, and recycling, thereby reducing the environmental impact of production and consumption.
- 2. Clean Energy Innovation:** Entrepreneurs are driving innovations in renewable energy technologies such as solar, wind, hydroelectric, and geothermal power. These advancements contribute to reducing greenhouse gas emissions, decreasing reliance on fossil fuels, and promoting energy independence.
- 3. Sustainable Agriculture and Food Systems:** Entrepreneurs are developing sustainable farming practices, agroecological approaches, and technologies for efficient water use, soil health improvement, and organic farming. Innovations in alternative proteins, vertical farming, and precision agriculture also contribute to sustainable food production.

(Approved by AICTE, Affiliated to JNTUH)

4. **Green Technologies and Eco-friendly Products:** Startups are creating eco-friendly alternatives to traditional products and materials. This includes biodegradable packaging, sustainable textiles, non-toxic cleaning products, and innovations in waste management technologies.

### Topics Covered:

The seminar will cover a range of topics at the forefront of Advancements in Sustainable Entrepreneurship

### Circular Economy:

- **Circular Design:** Designing products and systems with a focus on minimizing waste and maximizing resource efficiency.
- **Reverse Logistics:** Innovations in logistics and supply chain management to facilitate product reuse, refurbishment, and recycling.
- **Product Life Extension:** Strategies for extending the lifespan of products through maintenance, repair, and remanufacturing.
- **Clean Energy Technologies:**
  - **Renewable Energy:** Advancements in solar, wind, hydroelectric, geothermal, and tidal energy technologies.
  - **Energy Storage:** Innovations in batteries and energy storage systems to enhance the reliability and integration of renewable energy sources.
  - **Smart Grids:** Technologies for optimizing energy distribution and consumption through digital monitoring and control systems.

### Overview:

Join us for an engaging one-day Seminar Overall Advancements in sustainable entrepreneurship represent a proactive response to global challenges such as climate change, resource scarcity, and social inequality. Here's an overview highlighting key advancements in this field: These advancements underscore the transformative potential of sustainable entrepreneurship in addressing pressing global challenges while fostering economic prosperity, social equity, and environmental stewardship. By integrating sustainability into business strategies, entrepreneurs can drive innovation, create value, and contribute to a more sustainable and resilient future.

## **ABOUT THE DRKIST**

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu. Mr. D.B. ChandShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

## **ABOUT THE CSE DEPARTMENT**

The department of Computer Science and Engineering was established in the year 2004 and offers undergraduate programs to students from urban and rural areas of India. The department has well equipped computing laboratories and a rich repository of Software & Hardware covering a wide spectrum of applications. The department strongly emphasizes on learning fundamentals

## **ABOUT THE CERTIFICATE PROGRAM**

Advancements in deep learning for autonomous vehicles is crucial for enhancing safety, driving technological progress, complying with regulations, maintaining competitive advantage, and ensuring the reliability and trustworthiness of autonomous driving systems.

## **TOPICS COVERED**

- Object Detection
- Scene Understanding
- Navigation Accuracy
- Sensor Dependence
- Safety and Reliability
- Transfer Learning
- Evalnainahility

(Approved by AICTE, Affiliated to JNTUH)

Date: 12/08/2019

### PROGRAMME REPORT

Programme name	One-day workshop on Advancements in Deep Learning for Autonomous Vehicles in Research
Resource person	Dr Padmaja and Dr kamakshi Prasad
Date of activity	12/08/2019
Organized by	DRK Institutes of Science & Technology
Venue	Seminar Hall
Number of Students attended	25

#### Objectives:

- 1. Improve Perception Systems:** Enhance the ability of autonomous vehicles to detect and recognize objects, scenes, and events.
- 2. Enhance Decision-Making:** Develop more sophisticated decision-making algorithms that can handle complex scenarios and uncertainty.
- 3. Increase Navigation Accuracy:** Improve the accuracy and efficiency of autonomous vehicle navigation systems.
- 4. Reduce Sensor Dependence:** Develop deep learning models that can operate effectively with minimal sensor data.
- 5. Improve Safety and Reliability:** Enhance the overall safety and reliability of autonomous vehicles through advanced deep learning techniques.

PRINCIPAL

DRK Institute of Science & Technology  
Bowrampet, Quthbullapur, Hyderabad-500 043.

(Approved by AICTE, Affiliated to JNTUH)

### Outcomes:

1. **Improved Object Detection:** Accurate detection and classification of objects, including pedestrians, vehicles, and road infrastructure.
2. **Enhanced Scene Understanding:** Ability to understand complex scenes and events, such as construction zones or pedestrian crossings.
3. **Sophisticated Decision-Making:** Autonomous vehicles can make informed decisions in complex scenarios, such as merging onto a busy highway.
4. **Increased Navigation Efficiency:** Reduced navigation time and improved route planning.
5. **Reduced Sensor Dependence:** Ability to operate effectively in scenarios with limited sensor data, such as weather conditions or sensor failure.
6. **Improved Safety and Reliability:** Reduced risk of accidents and improved overall safety and reliability of autonomous vehicles.
7. **Enhanced Transfer Learning:** Ability to transfer learned knowledge to new environments and scenarios.
8. **Improved Explainability:** Ability to understand and interpret the decisions made by deep learning models.

### CIRCULAR

The Department of MBA is organizing a "One Day Workshop on Advances in IPR for Creative Industries" on 9<sup>th</sup> AUGUST 2019.

All students are requested to attend the workshop on 9<sup>th</sup> AUGUST 2019. Interested faculty members are also encouraged to participate in the program.

Event: One Day Workshop on Advances in IPR for Creative Industries

Speaker: Mr Guru Murthy, CEO, Silicon Valley 4 USA, USA

Date: 09-08-2019

Venue: Seminar Hall

Time: 9:30 AM

## **ABOUT THE DRKIST**

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu.

Mr. D.B. ChandShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

## **ABOUT THE MBA DEPARTMENT**

MBA at DRK is not just about receiving a degree. It is about the students to stand as an Innovator and leader to lead their business organizations in future and the management skills obtained from this course aids the business to new heights. Structure of the course is designed in such a way that it improves student's theoretical and practical knowledge of how business can operate and run in a successful path. It

## **ABOUT THE CERTIFICATE PROGRAM**

Advances in IPR for Creative Industries are essential components of modern industrial automation.

This structure ensures a comprehensive exploration of the role of Advances in IPR for Creative Industries, providing attendees with a solid understanding of the topic and its significance.

## **TOPICS COVERED**

- Digital Copyright Laws
- Extended Copyright Terms
- Online Licensing Platforms
- Anti-Piracy Legislation
- Model Building and Regression
- Linear Algebraic Equations
- International Harmonization

### PROGRAMME REPORT

Programme name	One-day Workshop on the Advances in IPR for Creative Industries
Resource person	Mr Guru Murthy, CEO, Silicon Valley 4 USA, USA
Date of activity	09-08-2019
Organized by	DRK Institutes of Science & Technology
Venue	Seminar Hall
Number of Students attended	30

#### Objectives:

1. Protect original creations and innovations
2. Encourage creativity, innovation, and entrepreneurship
3. Safeguard authors' and creators' rights and interests
4. Foster economic growth and competitiveness
5. Promote cultural and artistic development
6. Prevent piracy, copyright infringement, and plagiarism
7. Ensure fair use and access to creative works
8. Balance individual and public interests
9. Adapt to new technologies and digital platforms
10. Enhance international cooperation and harmonization of IPR laws and policies.

#### Overview of Workshop:

1. **Digital Copyright Laws:** Protecting digital content and online works.
2. **Extended Copyright Terms:** Longer protection periods for creative works.
3. **Online Licensing Platforms:** Simplifying copyright clearance and licensing.
4. **Anti-Piracy Legislation:** Strengthening laws against copyright infringement.
5. **International Harmonization:** Aligning IPR laws across countries.
6. **Copyright Reform:** Updating laws to accommodate new creative industries.
7. **Enhanced Enforcement:** Improved mechanisms for IP rights protection.
