ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu. Mr. D.B. ChandShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE CSE DEPARTMENT

The department of Computer Science and Engineering was established in the year 2004 and offers undergraduate programs to students from urban and rural areas of India. The department has well equipped computing laboratories and a rich repository of Software & Hardware covering a wide spectrum of applications. The department strongly emphasizes on learning fundamentals and analyzing latest technology to develop student's creativity by encouraging them to take up projects with varying levels of complexity. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE CERTIFICATE PROGRAM

This course covers many advanced concepts of the C programming language for embedded applications. This "Advanced Data Structures and Algorithms In C" course is thoroughly detailed and uses lots of animations to help you visualize the concepts.

TOPICS COVERED

- Introduction to Data structure
- Sparse Matrix and its representations
- Memory Allocation
- Binary Search Tree (BST)
- Hashing Functions

**Department of Computer Science and Engineering
REPORT**

**FACULTY DEVELOPMENT PROGRAMME ON ADVANCED C PROGRAMMING AND
DATA STRUCTURES (dt 20/07/2019 to 25/07/2019)**

Summary of the report is:

The speakers outlined the objectives of the advanced C programming class, which are to:

1. Create more structured and portable code using advanced C language constructs and techniques.
2. Master the following topics:
 - Structures, unions, and bit fields.
 - Advanced pointer concepts, including:
 - Arrays of pointers.
 - Arrays of structures and unions.
 - Pointers to arrays of structures and unions.
 - Nested structures and unions.
 - Flexible 'typedef' methods for data structures and variables.
 - Function pointers and arrays/structures of function pointers for state machines.
 - Dereferenced double pointers.
3. Participate in 7 instructor-led hands-on labs to demonstrate each concept.
4. Prerequisites:
 - Proficiency in C programming fundamentals.
 - Experience with embedded C firmware development.
5. Learn ANSI-C concepts in a non-hardware framework, focusing on the C language rather than microcontroller architecture.

By achieving these objectives, participants will enhance their C programming skills, enabling them to write more efficient, portable, and structured code.

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B ChandraSekhar Rao. He founded the institute in honor of his late father, Sri Dasari RamaKotaiah Garu. Mr D.B.ChandraShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE ECE DEPARTMENT

The Department of Electronics and Communication Engineering was established in 2006. It offers Under Graduating Programme with intake of 60 students. The students are offered with innovative workshops, guest lectures informative industrial visits etc. on a regular basis, to keep them updated with the latest trends in electronics and communication engineering. Well- equipped labs and sound academic record faculty are provided to make the students feel the greatness of Electronics and communication Engineering. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE CERTIFICATE
PROGRAM

The Internet of Things (IoT) describes the network of physical objects "things" that are embedded with sensors, software, and other technologies for the purpose of connecting and exchanging data with other devices and systems over the internet.

TOPICS COVERED

- Introduction to internet of things
- Smart lighting
- Smart security
- Wearable devices
- Crop monitoring

Department of Electronics and Communication Engineering
REPORT
FACULTY DEVELOPMENT PROGRAMME ON INTERNET OF THINGS

Summary of the program:

Speakers discussed on Internet of Things (IoT) refers to a network of physical devices, vehicles, and objects embedded with sensors, software, and network connectivity, allowing them to collect and share data. IoT devices, or "smart objects," can range from simple devices like smart thermostats to complex industrial machinery and transportation systems.

IoT enables these devices to communicate with each other and with other internet-enabled devices, creating a vast network of interconnected devices that can exchange data and perform tasks autonomously. Applications of IoT include:

1. Monitoring environmental conditions in farms
2. Managing traffic patterns with smart cars and devices
3. Controlling machines and processes in factories
4. Tracking inventory and shipments in warehouses

In an enterprise context, IoT devices monitor parameters like:

1. Temperature
2. Humidity
3. Air quality
4. Energy consumption
5. Machine performance

This data can be analyzed in real-time to identify patterns, trends, and anomalies, helping businesses optimize operations and improve their bottom line.

The potential applications of IoT are vast, and its impact is already being felt across industries like manufacturing, transportation, healthcare, and agriculture. As the number of internet-connected devices grows, IoT will play an increasingly important role in shaping our world, transforming how we live, work, and interact.

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu. Mr. D.B. Chandra Sekhar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE EEE DEPARTMENT

The department of Electrical and Electronics Engineering was established in the year 2004. It offers UG with intake of 30 students. The students are offered with innovative workshops, guest lectures informative industrial visits etc. on a regular basis, to keep them updated with the latest trends in electrical and electronics engineering. Well-equipped labs and sound academic record faculty are provided to make the students feel the greatness of Electrical Engineering. DRK values the importance of this stream, and honors it by providing the course.

About the Certificate Program

Integrating renewable energy sources (RESs) such as solar photovoltaic (PV), wind, biogas, and hydropower into the power system is a sustainable solution that can feasibly maintain the power supply and demand response. The uncertainty in solar irradiance and wind speed impedes the supply and demand response.

TOPICS COVERED

- Introduction to renewable energy integration to modern power systems
- Integrated systems
- Hydrogen integration
- Wind power
- Renewable energy hybrid systems

REPORT ON FACULTY DEVELOPMENT PROGRAMME ON RECENT ADVANCES IN RENEWABLE ENERGY INTEGRATION TO MODERN POWER SYSTEMS

Summary of the programme

Speakers discussed about the integration of renewable energy sources (RESs) like solar PV, wind, biogas, and hydropower into the power system can maintain a sustainable power supply and demand response. However, uncertainty in solar irradiance and wind speed poses a challenge. To address this, intelligent control techniques can be used to forecast necessary information and maintain system operation.

This paper:

1. Analyzes 89 research works on intelligent techniques integrated into RESs and energy storage systems (ESSs)
2. Classifies techniques according to considered resources (PV, wind, biogas, hydropower)
3. Provides a critical analysis of:
 - Numerical data review
 - Prediction accuracy
 - Pros and cons
 - Techno-economic feasibility

The goal is to offer a comprehensive insight into the research field, enabling readers to understand the strengths and weaknesses of various intelligent techniques for integrating RESs and ESSs.

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu. Mr. D. B. Chandra Shekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE MECH DEPARTMENT

The department of Mechanical Engineering was established in the year 2004. The department has qualified, motivated and experienced faculty. The department well with lab facilities for the students, which includes Basic Engineering Workshop to most modern CNC machine shop. The department organizes conferences and workshops to expose the latest technologies. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE CERTIFICATE PROGRAM

AUTO CAD Enhanced design experience with help from Autodesk AI to capture, share, and review ideas. Experience enhanced automation and curated insights with the latest release of **AUTOCAD**.

TOPICS COVERED

- Introduction to AUTOCAD
- AUTOCAD Modules
- Commands used in AUTOCAD
- APPLICATIONS
- AUTOCAD in design of advanced machinery
- Design and development through AUTOCAD

REPORT ON FACULTY DEVELOPMENT PROGRAMME ON AUTOCAD

Opening remarks for the FDP were given by S. Vasudeva Rao, which was followed by an introduction to the programme by Prof. S. Madhusudan Rao. He also gave a glimpse of the activities going on in DRK Institute of Science and Technology.

The programme progressed with the inaugural lecture at 10:30 am by S. Vadudeva Rao in which he mainly focused on the AUTOCAD software applications.

The next speaker was Prof. S. Shyam Sunder Rao. He mainly talked about the research in the area of design which was followed by a brain storming session.

After the lunch break, Prof. Suryaprakash Rao mainly talked about his research in the area of applications of design softwares.

Most of them talked about their enriching experience at the FDP. The final lecture was given by Prof. S. Rameshbabu on design and development of AUTOCAD.

ABOUT THE DRKIST

The era of success of DRK Group of Educational Institutions has started way back in 2004 when it was established by Mr.

D.B Chandra Sekhar Rao in the fond memory of his late father Sri Dasari Rama Kotaiah garu. Mr. D. B chandra Shekar Rao is an eminent & successful entrepreneur, who has subsequently decided to focus on high quality education with the philanthropic motive, to act as a leader to promote economic & industrial growth of the country. DRK Institute of science and technology belongs to the DRK Educational Society. DRK Group has envisaged significant investment of capital and resources to give shape to the development of the institute, In terms of infrastructure, academic resources and career development for its students. A vibrant effort has been made to consciously invest to improve the conceptual and technical skill of the students.

ABOUT THE MBA DEPARTMENT

The Master of Business Administration department has started from the Academic year 2007-08 and introduced the research programs from the same academic year. Sound knowledge of management course curriculum is the real strength of each and every student when the part with the university after two years successful course completion to experience the true traveler's lifestyle. DRK values the importance of this stream, and honors it by providing the course. The department inculcating the spirit of entrepreneurship.

Department of Master of Business Administration

REPORT

FACULTY DEVELOPMENT PROGRAMME ON BUSSINES STATISTICS AND RESEARCH

Summary:

Speakers discusses about Business Statistics and Research Methods play a pivotal role in the world of academia and industry, providing invaluable tools for decision-making, problem-solving, and understanding market trends. Aspiring candidates preparing for the UGC NET exam recognize the significance of mastering these subjects, as they form an integral part of the syllabus. Business Statistics encompasses techniques for collecting, analyzing, interpreting, and presenting data relevant to business operations, while Research Methods provide a systematic framework for conducting empirical investigations and scholarly inquiry. Through a comprehensive exploration of topics such as probability theory, hypothesis testing, sampling techniques, experimental design, and data analysis, these notes aim to empower candidates to tackle the challenges posed by the UGC NET exam with confidence and proficiency. Let us embark on this journey of discovery and mastery, as we navigate the intricate landscape of Business Statistics and Research Methods together.

iology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Ira Sekhar Rao. He founded the institute in memory of his late father, Sri Dasari Rama Kotaiah. Mr. D.B. Chandra Shekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Group, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' intellectual and technical skills, equipping them to face the challenges of the modern world.

ABOUT THE H&S DEPARTMENT

The Department of Science and Humanities was established in the year 2006. Students of I Year are admitted to this Department. It inculcates basic knowledge in Mathematics, Physics, Chemistry and English which is the foundation of engineering education. In our Department the study of science and technology prevails, as it is believed that Engineering and Science are, by their nature, humanistic and socially derived disciplines. English language is pervasive and is used throughout the world. It is the language of all walks of life. Mathematics, the queen of sciences, is the basis for all branches of Science, Engineering and Technology. The study of Physics uncovers the mysteries of nature through the study of properties of matter. Equally important is the study of Environmental Chemistry and Engineering, to save the globe from pollution.

DRK Institute of Science & Technology
Bowrampet, Hyderabad - 500 045.

Department of Humanities and Sciences

REPORT ON FACULTY DEVELOPMENT PROGRAMME ON ADVANCED PRESENTATION SKILLS

Summary of the programme

Effective presentation skills help you get your point across and connect with the people you're communicating with, which is why nearly every employer requires them.

Understanding what presentation skills are is only half the battle. Honing your presenting techniques is essential for mastering presentations of all kinds and in all settings.

Presentation skills are the abilities and qualities necessary for creating and delivering a compelling presentation that effectively communicates information and ideas. They encompass what you say, how you structure it, and the materials you include to support what you say, such as slides, videos, or images.

You'll make presentations at various times in your life. Examples include:

Making speeches at a wedding, conference, or another event

Making a toast at a dinner or event

Explaining projects to a team

Delivering results and findings to management teams

Teaching people specific methods or information

Proposing a vote at community group meetings

Pitching a new idea or business to potential partners or investors
