CIRCULAR

All IV B.Tech students are notified that final year EEE and ECE students will have a two-day ICT & COMPUTING program on "VLSI TECHNOLOGY." Enrollment for interested students is open until September 1, 2023, at the latest. Upon successfully completing the course, students will receive a certificate. The course materials and additional details are supplied herewith.

Resource person : **Dr.Varaprasad Rao** AMD,HYD

Date:2/09/2023 to 03/09/2023

PROGRAM REPORT

Topic	A Two Days ICT & Computing Program on " VLSI TECHNOLOGY "
Venue	Seminar Hall
Time	10:00AM to 4:00PM
Date	2/09/2023 to 3/09/2023
Resource Person	Dr.Varaprasad Rao,AMD
Coordinator	Mrs.M.Madhavi

Description

A two-days ICT and computing program on "VLSI TECHNOLOGY" has been arranged by the Department of ECE at the DRK Institute of Science and Technology for IV B.Tech students from all branches. Seventy-two students in all have participated in the program.

Dr.Varaprasad Rao has clearly illustrated the importance of VLSI Essentials concepts. Our instructor explained that the main goal of the course is to guide us from a state of complete programming illiteracy to a level where we can design, write, debug, and run programs encoded in EDR.

He emphasized that by the end of the course, we would not only be proficient in VLSI programing but also have a solid understanding of the basic concepts of software development technology.

He assured us that the course would prepare us for jobs and careers in the broad field of software development.

This preparation includes not only the creation of code itself, potentially starting as junior developers, but also extends to areas such as computer systems design and software testing. Essentially, he wanted us to understand that this course is comprehensive and would equip us with the necessary skills to enter various roles within the software development industry.

The program was conducted successfully with the coordination of the faculty members of ECE. Students participated actively and interacted with resource person

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B.Chandrasekhar Rao. He founded the institute in honor of his late father, Sri Dadas RamaKanthal Chari. Mr.D.B.Chandrasekhar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education to students for growth. A leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that challenges its students to think critically and creatively, helping them to face the challenges of the modern world.

ABOUT THE ECE DEPARTMENT

The department of Electronics and Communication Engineering was established in 2006. It offers Under Graduate programme with intake of 60 students. The students are offered with innovative workshops, guest lectures, informative industrial visits etc. on a regular basis, to keep them updated with the latest trends in electronics and communication engineering. Well equipped laboratories and academic records are provided to make the students feel the greatness of Electronics and Communication Engineering. DRK values the importance of this stream and honours it by providing the course.

Objectives:

The main goal of the course is to guide you from a state of complete programming illiteracy to a level of programming knowledge which allows you to design, write, debug, and run programs encoded in the Verilog programming language. To understand the basic concepts of software development technology

Expected Outcomes:

The course will prepare you for jobs and careers connected with widely understood software development, which includes not only creating the code itself as a junior developer, but also computer systems design and software testing. Practice skills in resolving typical implementation challenges. Use the most important elements of VLSI Standard Library. Install your runtime environment. Write your own verilog programs

Description

Department of CSE, DRK institute of Science and Technology has organized a Two Day ICT & Computing Program on " **CLOUD COMPUTING** "for IV B.Tech students of all branches. A total of 75 students have attended the program.

Cloud computing Essentials ideas are important, as M. Rama Krishna has demonstrated. The primary objective of the course, according to our instructor, is to take us from a completely illiterate state in programming to one in which we are able to design, write, debug, and execute programs encoded in SOC tools.

He emphasized that by the end of the course, we would not only be proficient in hacking but also have a solid understanding of the basic concepts of software development technology.

He assured us that the course would prepare us for jobs and careers in the broad field of software development.

This preparation includes not only the creation of code itself, potentially starting as junior developers, but also extends to areas such as computer systems design and software testing. Essentially, he wanted us to understand that this course is comprehensive and would equip us with the necessary skills to enter various roles within the software development industry.

The program was conducted successfully with the coordination of the faculty members of CSE. Students participated actively and interacted with resource person

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.D. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Ramu Kotiash Rao. Mr. D.D. ChandShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE CSE DEPARTMENT

The department of Computer Science and Engineering was established in the year 2004 and offers undergraduate programs to students from urban and rural areas of India. The department has well equipped computing laboratories and a rich repository of Software & Hardware covering a wide spectrum of applications. The department strongly emphasizes on learning fundamentals and analyzing latest technology to develop student's creativity by encouraging them to take up projects with varying levels of complexity. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE PROGRAM

Cloud computing is the on-demand availability of computer system resources, especially data storage (cloud storage) and computing power, without direct active management by the user.^[2] Large clouds often have functions distributed over multiple locations, each of which is a data center.

Expected Outcomes

By leveraging cloud computing, organizations can achieve greater flexibility, availability, and cost-efficiency in managing their IT infrastructure. They can rapidly deploy and scale resources according to demand, reducing the need for upfront investments in hardware and software. Additionally, cloud computing enables enhanced collaboration, agility, and innovation by facilitating access to advanced technologies and tools. Overall, the adoption of cloud computing can lead to improved operational efficiency, business agility, and competitive advantage in today's digital landscape.

Description

Department of MBA, DRK institute of Science and Technology has organized the Two Days ICT & Computing Program on "**Digital Marketing**" for IV B.Tech students of all branches. A total of 75 students have attended the program.

Resource person explained digital marketing in a comprehensive and engaging manner. He described it as the promotion of brands with the aim of connecting with potential customers through the internet and various forms of digital communication.

This encompasses a wide array of strategies and tools, including email marketing, social media campaigns, and web-based advertising. Additionally, he pointed out that text messages and multimedia messages are also crucial components of digital marketing channels.

The explanation highlighted how diverse and multifaceted digital marketing is, emphasizing its importance in today's business landscape.

The program was conducted successfully with the coordination of the faculty members of MBA. Students participated actively and interacted with resource person.

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B.Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Desuri Rama Komali Gari. Mr. D. B. Chandra Sekhar Rao,a distinguished and successful entrepreneur, established the institution with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE MBA DEPARTMENT

The Master of Business Administration department has started from the Academic year 2007-08 and introduced the research programs from the same academic year. Sound knowledge of management course curriculum is the real strength of each and every student when the part with the university after two years successful course completion to experience the true traveler's lifestyle. DRK values the importance of this stream, and honors it by providing the course. The department inculcating the spirit of entrepreneurship. Developing a class of quality management professionals who strive for serving the society. The department provides quality oriented programs and produces fully fledged business leaders to serve the society.

OBJECTIVE

The primary objective of digital marketing is to increase brand visibility, attract and engage target audiences, and ultimately drive conversions and sales through various online channels such as social media, search engines, emails, and websites.

TOPICS COVERED

Digital marketing efforts should result in measurable outcomes such as increased website traffic, higher conversion rates, improved brand awareness and recognition, enhanced customer engagement and loyalty, and ultimately, a positive return on investment. These outcomes are achieved through strategic planning, targeted messaging, and continuous optimization of digital campaigns to align with business goals and objectives.

Description:

Department of EEE ,DRKIST has organized the two Days ICT&Computing Program on” **MATLAB Basics and SIMULATION**” for EEE and ECE students. A total of 65 students have attend the program.

Mr.K.Rambabu has clearly illustrated the importance of MATLAB concepts .Our instructor explained that the main goal of the course is to guide us from a state of complete programming illiteracy to a level where we can design,write,debug, and run programs encoded in MATLAB

He emphasized that by the end of the course ,we would not only be proficient in MATLAB but also have a solid understanding of the basic concepts of software development technology.

He assured us that the course would prepare us for jobs and careers in the board field of software development.

In addition to writing code itself—possibly beginning with junior developers—this preparation also covers topics like software testing and computer systems design. All he really wanted us to know was that this is a thorough course that will equip us with the necessary abilities to pursue a variety of careers in the software development business.

The program was conducted successfully with the coordination of the faculty members of EEE.Students participated actively and interacted with resource person.

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Ramu Koniah. Dr. Chandra Sekhar Rao, a highly successful and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has contributed significantly in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE EEE DEPARTMENT

The department of Electrical and Electronics Engineering was established in the year 2004. It offers UG with intake of 30 students. The students are offered with innovative workshops, guest lectures, informative industry visits etc. on a regular basis. The department is updated with the latest trends in electrical and electronics engineering. Well equipped labs and sound academic record faculty are provided to make the students feel the greatness of Electrical Engineering. DRK values the importance of this stream, and honours it by providing the course.

About the Certificate Program

MATLAB and Simulink are used to teach fundamental electrical and computer engineering concepts spanning theory to hands-on projects. MATLAB an excellent tool for teaching and research.

TOPICS COVERED

- An overview of MATLAB
- Programming with MATLAB
- Arrays
- Functions
- Advanced Plotting
- Model Building and Regression
- Linear Algebraic Equations
- Statistics, Probability and Interpolation
- Numerical Methods for Calculus Differential Equations

Description

Department of CSE, DRK institute of Science and Technology has organized a Two Days ICT & Computing Program on " Python Programming "for IV B.Tech students of all branches. A total of 60 students have attended the program.

Mr.M.Jagadeesh has clearly illustrated the importance of Python Essentials concepts. Our instructor explained that the main goal of the course is to guide us from a state of complete programming illiteracy to a level where we can design, write, debug, and run programs encoded in Python.

He emphasized that by the end of the course, we would not only be proficient in Python but also have a solid understanding of the basic concepts of software development technology.

He assured us that the course would prepare us for jobs and careers in the broad field of software development.

This preparation includes not only the creation of code itself, potentially starting as junior developers, but also extends to areas such as computer systems design and software testing. Essentially, he wanted us to understand that this course is comprehensive and would equip us with the necessary skills to enter various roles within the software development industry.

The program was conducted successfully with the coordination of the faculty members of CSE. Students participated actively and interacted with resource person

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotiah Garu. Mr. D.B. Chandra Sekhar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Education Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE CSE DEPARTMENT

The department of Computer Science and Engineering was established in the year 2004 and offers undergraduate programs to students from urban and rural areas of India. The department has well equipped computing laboratories and a rich repository of Software & Hardware covering a wide spectrum of applications. The department strongly emphasizes on learning fundamentals and analyzing latest technology to develop student's creativity by encouraging them to take up projects with varying levels of complexity. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE PROGRAM

The primary goal of Python Programming is to provide on-demand access to a shared pool of computing resources, including networks, servers, storage, applications, and services, delivered over the internet.

Expected Outcomes

By leveraging Python programming, organizations can achieve greater flexibility, scalability, and cost-efficiency in managing their IT infrastructure. They can rapidly deploy and scale resources according to demand, reducing the need for upfront investments in hardware and software. Additionally, cloud computing enables enhanced collaboration, agility, and innovation by facilitating access to advanced technologies and tools. Overall, the adoption of cloud computing can lead to improved operational efficiency, business agility, and competitive advantage in today's digital landscape.

CIRCULAR

The Department of CSE is hosting a two-day ICT & COMPUTING program for third- and final-year students from all departments called "Introduction to Linux." Before August 19, 2019, students who are interested can register their names. Upon successfully completing the course, students will receive a certificate. The course materials and additional details are supplied herewith.

PROGRAM REPORT

Topic	A Two Days ICT & Computing Program on " Introduction to Linux "
Venue	Seminor Hall
Time	10:00AM to 4:00PM
Date	21/08/2019 to 22/08/2019
Resource Person	Mr. Manoj Kumar, vertulonix,hyd
Coordinator	Mrs.G.Prasanthi

Description

Department of CSE, DRK institute of Science and Technology has organized a One Day ICT & Computing Program on "**Introduction to Linux**" for IV B.Tech students of all branches. A total of 70 students have attended the program.

Resource person explained that Linux is an open-source operating system that manages a system's hardware and resources, like the CPU, memory, and storage. It's written in computer languages such as C and other assembly languages. Linux, which is similar to UNIX, forms the foundation of the modern IT stack and is used in a wide range of devices, including smart phones, cars, home appliances, desktops, refrigerators, and thermostats.

He emphasized that Linux is highly configurable due to its modular design, allowing users to customize their own versions of the operating system. Depending on the application, Linux can be optimized for different purposes, such as enhancing networking performance, improving computation performance, deploying on specific hardware platforms, or running on systems with limited memory, storage, or computing resources.

Users have the flexibility to choose different Linux distributions for specific applications or adapt a particular distribution by incorporating custom kernel configurations.

The program was conducted successfully with the coordination of the faculty members of CSE. Students participated actively and interacted with resource person.

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotiah Guru. Mr. D.B. Chandra Sekhar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE CSE DEPARTMENT

The department of Computer Science and Engineering was established in the year 2004 and offers undergraduate programs to students from urban and rural areas of India. The department has well equipped computing laboratories and a rich repository of Software & Hardware covering a wide spectrum of applications. The department strongly emphasizes on learning fundamentals and analyzing latest technology to develop student's creativity by encouraging them to take up projects with varying levels of complexity. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE PROGRAM

The primary goal of LINUX PROGRAMMING is to provide on-demand access to a shared pool of computing resources, including networks, servers, storage, applications, and services, delivered over the internet.

Expected Outcomes

By leveraging Linux programming, organizations can achieve greater flexibility, scalability, and cost-efficiency in managing their IT infrastructure. They can rapidly deploy and scale resources according to demand, reducing the need for upfront investments in hardware and software. Additionally, cloud computing enables enhanced collaboration, agility, and innovation by facilitating access to advanced technologies and tools. Overall, the adoption of cloud computing can lead to improved operational efficiency, business agility, and competitive advantage in today's digital landscape.
