ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu. Mr. D.B. Chandra Sekhar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE CSE DEPARTMENT

The department of Computer Science and Engineering was established in the year 2004 and offers undergraduate programs to students from urban and rural areas of India. The department has well equipped computing laboratories and a rich repository of Software & Hardware covering a wide spectrum of applications. The department strongly emphasizes on learning fundamentals and analyzing latest technology to develop student's creativity by encouraging them to take up projects with varying levels of complexity. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE CERTIFICATE PROGRAM

Develop and expand your data scientist and analytics skill set to immediately and effectively participate in big data and other analytics projects. These courses and certifications, developed by Dell EMC, are technology-neutral programs designed to teach advanced analytic methods and big data analytics technologies and tools. You will apply these methods and tools to real world business challenges and confirm your ability to participate as a data science team member.

TOPICS COVERED

- Introduction Introduction to Data science
- Machine learning
- Deep learning
- Data mining
- Cloud computing

Department of Computer Science and Engineering REPORT

FACULTY DEVELOPMENT PROGRAMME ON ADVANCED C PROGRAMMING AND DATA STRUCTURES (dt 20/07/2019 to 25/07/2019)

Summary of the report is:

The speakers discussed an advanced C programming class that aims to enhance participants' C programming skills, focusing on:

1. Advanced language constructs and techniques for structured and portable code.
2. Topics covered:
 - Structures, unions, and bit fields.
 - Advanced pointer concepts, including arrays of pointers, structures, and unions.
 - Nested structures and unions.
 - Flexible 'typedef' methods for data structures and variables.
 - Function pointers and arrays/structures of function pointers for state machines.
 - Dereferenced double pointers.
3. Hands-on labs (7) using MPLABX, XC32 compiler, and simulator to demonstrate concepts.
4. Focus on ANSI-C concepts, independent of microcontroller architecture.
5. Prerequisites:
 - Proficiency in C programming fundamentals.
 - Experience with embedded C firmware development.

The class aims to help participants master advanced C programming techniques, enhancing their ability to write efficient, portable, and structured code.

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B.ChandraSekhar Rao. He founded the institute in honor of his late father, Sri Dasari RamaKotaiah Garu. Mr.D.B.ChandraShekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE ECE DEPARTMENT

The Department of Electronics and Communication Engineering was established in 2006. It offers Under Graduating Programme with intake of 60 students. The students are offered with innovative workshops, guest lectures informative industrial visits etc. on a regular basis, to keep them updated with the latest trends in electronics and communication engineering. Well-equipped labs and sound academic record faculty are provided to make the students feel the greatness of Electronics and communication Engineering. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE CERTIFICATE PROGRAM

Artificial intelligence (AI) is a set of technologies that enable computers to perform a variety of advanced functions, including the ability to see, understand and translate spoken and written language, analyze data, make recommendations, and more.

TOPICS COVERED

- Introduction to Artificial intelligence(AI)
- Deep learning
- Computer vision
- Ethics in AI
- Natural language processi

Department of Electronics and Communication Engineering
REPORT
FACULTY DEVELOPMENT PROGRAMME ON ARTIFICIAL INTELLEGENCE

Program summary:

Speakers discussed the transformative impact of Artificial Intelligence (AI) on various aspects of life, including personal, social, and business spheres. It highlights the growing enthusiasm for AI and its rapid advancements, from traditional medical expert systems and intelligent search engines to modern intelligent chatbots and predictive models.

The article identifies the key elements of AI as:

1. Natural Language Processing (NLP)
2. Expert Systems
3. Robotics
4. Intelligent Agents
5. Computational Intelligence

These elements are crucial in driving AI's capabilities and applications. The article aims to inspire readers to get involved in AI and contribute to the digital transformation efforts in the oil and gas industry, providing suggestions for getting started.

By understanding these key elements and taking strategic steps, individuals can harness the power of AI to drive innovation, improve efficiency, and create new opportunities in various industries, including oil and gas.

Chandra Sekhar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE EEE DEPARTMENT

The department of Electrical and Electronics Engineering was established in the year 2004. It offers UG with intake of 30 students. The students are offered with innovative workshops, guest lectures informative industrial visits etc. on a regular basis, to keep them updated with the latest trends in electrical and electronics engineering. Well-equipped labs and sound academic record faculty are provided to make the students feel the greatness of Electrical Engineering. DRK values the importance of this stream, and honors it by providing the course.

About the Certificate Program

For ground-mounted PV arrays, tracking mechanisms can move panels to follow the sun, which can increase energy production and returns on investment. One-axis trackers move panels east to west, while two-axis trackers can keep panels pointed directly at the sun all day. However, tracking systems can be more expensive and require more maintenance.

TOPICS COVERED

- Introduction To Design And Development Of Photovoltaic Module For PV Generation
- Design Of PV Generation
- Development Of PV
- Application Of PV
- Advanced PV Generation Techniques.

REPORT

FACULTY DEVELOPMENT PROGRAMME ON DESIGN AND DEVELOPMENT OF PHOTOVOLTAIC MODULE FOR PV GENERATION

Summary of the programme

Speaker discussed on novel solar photovoltaic (PV) module detection control system based on power line carrier (PLC) technology has been proposed and designed to enhance the security and reliability of PV systems. The system can:

1. Detect main parameters of single or multiple modules, including:
 - Voltage
 - Temperature
2. Use a digital control circuit for effective detection and fault protection of PV modules.
3. Protect and control PV modules with a designed control method.

The experimental prototype demonstrated:

1. High precision
2. Low cost
3. Good performance

This system is suitable for future solar power generation systems, offering advantages in:

1. Enhanced security
2. Improved reliability
3. Efficient detection and protection of PV modules

The proposed system can contribute to the development of more efficient and reliable solar power generation systems.

ABOUT THE DRKIST

The DRK Institute of Science and Technology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Chandra Sekhar Rao. He founded the institute in honor of his late father, Sri Dasari Rama Kotaiah Garu. Mr. D. B. Chandra Shekar Rao, a distinguished and successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Society, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' conceptual and technical skills, equipping them for the challenges of the modern world.

ABOUT THE MECH DEPARTMENT

The department of Mechanical Engineering was established in the year 2004. The department has qualified, motivated and experienced faculty. The department well with lab facilities for the students, which includes Basic Engineering Workshop to most modern CNC machine shop. The department organizes conferences and workshops to expose the latest technologies. DRK values the importance of this stream, and honors it by providing the course.

ABOUT THE CERTIFICATE PROGRAM

Automotive engineering is a branch of vehicle engineering that involves the design, application, and manufacturing of various types of automobiles. It uses math and physics concepts in the design and production of vehicles. Some relevant engineering disciplines in this field include: safety engineering, vehicle electronics, quality control, fuel economy, and emissions.

TOPICS COVERED

- Introduction to Automotive Engineering
- Automotive design
- Vehicle dynamics
- Automotive chassis

Department of Mechanical engineering REPORT

FACULTY DEVELOPMENT PROGRAMME ON AUTOMOTIVE ENGINEERING

Summary of the program:

The speakers, Dr. K. Chandra Sekhar, Dr. Sridhar Babu, Prof. N. Mangapathi Rao, and Dr. S. Suryaprakash Rao, discussed the field of Automotive Engineering, highlighting:

1. Definition: A branch of mechanical engineering and vehicle engineering that focuses on designing, manufacturing, and ensuring safety and efficiency standards of vehicles.
2. Scope: Involves research, design, development, testing, and production of vehicles.
3. Key areas: Safety engineering, vehicle electronics, quality control, fuel economy, and emissions.
4. Skills required: Mathematics, physics, problem-solving, communication, and collaboration.
5. Career path: Pursue a degree in automotive engineering or a related field, gain practical experience, and stay updated with industry developments.

They emphasized that automotive engineering is a research-intensive field that requires educated professionals with specialized skills. The field applies mathematical and physics concepts to design and produce vehicles, ensuring safety, efficiency, and performance.

ABOUT THE DRKIST

The era of success of DRK Group of Educational Institutions has started way back in 2004 when it was established by Mr.

D.B Chandra Sekhar Rao in the fond memory of his late father Sri Dasari Rama Kotaiah garu. Mr. D. B chandra Shekar Rao is an eminent & successful entrepreneur, who has subsequently decided to focus on high quality education with the philanthropic motive, to act as a leader to promote economic & industrial growth of the country. DRK Institute of Science and Technology belongs to the DRK Educational Society. DRK Group has envisaged significant investment of capital and resources to give shape to the development of the institute. In terms of infrastructure, academic resources and career development for its students. A vibrant effort has been made to consciously invest to improve the conceptual and technical skill of the students.

ABOUT THE MBA DEPARTMENT

The Master of Business Administration department has started from the Academic year 2007-08 and introduced the research programs from the same academic year. Sound knowledge of management course curriculum is the real strength of each and every student when they part with the university after two years successful course completion to experience the true traveler's lifestyle. DRK values the importance of this stream, and honors it by providing the course. The department inculcating the spirit of entrepreneurship.

ABOUT THE CERTIFICATE PROGRAM

The Basic Program on Stock Markets offered by DRK college is an introductory offline program designed to provide faculty with a comprehensive understanding of the stock market. It covers the fundamental concepts of the stock market and the Indian securities market, including the role of stock exchanges, regulatory bodies, and various financial instruments such as equities, bonds, and derivatives.

TOPICS COVERED

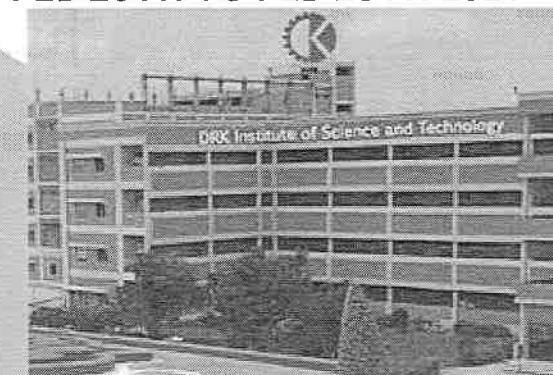

- *Introduction to Stock exchange market*
- *Valuation of securities*
- *Contributor to economic growth*
- *Capital allocation*
- *Public awareness of equity investment*

Department of Master of Business Administration

REPORT

FACULTY DEVELOPMENT PROGRAMME ON HANDS ON PROGRAM ON STOCK EXCHANGE MARKET

Summary of the report:

Speakers discussion: The Indian stock market has seen a significant increase in Demat account holders, from 8.4 crore in 2022 to 11 crore in January 2023, with millennials driving this trend. However, investing in the stock market comes with both potential profits and risks of losses. To consistently earn profits, traders and investors need:

1. A sound knowledge base
2. Continuous learning through online stock market courses

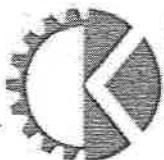

Key takeaways:

- Stock market investment is seen as an alternative source of income by millennials
- The number of Demat account holders is rising rapidly
- Consistent profits in the stock market require knowledge and continuous learning
- Online stock market courses can help bridge the knowledge gap

By educating themselves and staying up-to-date with market trends and analysis, investors can make informed decisions and navigate the risks associated with stock market investing.

ology's journey of success began in 2004 under the visionary leadership of Mr. D.B. Sri Sekhar Rao. He founded the institute in memory of his late father, Sri Dasari Rama Kotaiah. Mr. D.B. Chandra Sekhar Rao, a distinguished successful entrepreneur, established the institute with an unwavering commitment to providing high-quality education. His vision was to create a leading institution that would contribute to the nation's economic and industrial growth. DRK Institute of Science and Technology is part of the DRK Educational Group, which has made significant investments in infrastructure, academic resources, and career development opportunities for its students. The institute dedicates itself to cultivating a dynamic learning environment that enhances its students' spiritual and technical skills, equipping them to face the challenges of the modern world.

ABOUT THE H&S DEPARTMENT

The Department of Science and Humanities was established in the year 2006. Students of I Year belong to this Department. It inculcates basic knowledge in Mathematics, Physics, Chemistry and English which is the foundation of engineering education. In our Department the spirit of science and technology prevails, as it is believed that Engineering and Science are, by their very nature, humanistic and socially derived disciplines. English language is pervasive and is used throughout the world. It is the language of international trade and walks of life. Mathematics, the queen of sciences, is the basis for all branches of Science, Engineering and Technology. The study of Physics uncovers the mysteries of nature through the study of properties of matter. Equally important is the study of Environmental Science and Engineering, to save the globe from pollution.

Department of Humanities and Sciences

REPORT ON FACULTY DEVELOPMENT PROGRAMME ON ADVANCED PRESENTATION SKILLS

Summary of the programme

Whatever the scenario, you have very little time to capture your audience's attention and get your point across when presenting information—about three seconds, according to research [2]. Effective presentation skills help you get your point across and connect with the people you're communicating with, which is why nearly every employer requires them.

Understanding what presentation skills are is only half the battle. Honing your presenting techniques is essential for mastering presentations of all kinds and in all settings.

Presentation skills are the abilities and qualities necessary for creating and delivering a compelling presentation that effectively communicates information and ideas. They encompass what you say, how you structure it, and the materials you include to support what you say, such as slides, videos, or images.

You'll make presentations at various times in your life. Examples include:

Making speeches at a wedding, conference, or another event

Making a toast at a dinner or event

Explaining projects to a team

Delivering results and findings to management teams

Teaching people specific methods or information

Proposing a vote at community group meetings

Pitching a new idea or business to potential partners or investors
